Re: Authorized Ex Parte Contact – WC Docket No. 06-122

Dear Ms. Dortch:

On November 17, 2010, Vincent Paquet, Senior Product Manager, and the undersigned from Google Inc. ("Google"), met separately with Zac Katz, Legal Advisor for Wireline Communications, International, and Internet Issues for Chairman Genachowski, and David Tannenbaum, Special Counsel in the Office of General Counsel; Christine Kurth, Policy Director and Wireline Counsel for Commissioner's McDowell; Brad Gillen, Legal Advisor for Commissioner Baker; and Margaret McCarthy, Policy Advisor for Broadband, Wireline, and Universal Service for Commissioner Copps.

In the meeting, the Google representatives provided an overview of the Google Voice offering, including how it operates and its numerous consumer benefits, and presented an interactive demo of various Google Voice applications. As part of that discussion, the Google representatives referenced the attached slides. In addition, the Google representatives briefly addressed questions concerning the Google Voice business model, user privacy, and concerns about the recent Kansas-Nebraska VoIP order.

Should you have any questions, please do not hesitate to contact the undersigned.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "R. S. Whitt".

Richard S. Whitt, Esq.
Washington Telecom and Media Counsel

cc: Zac Katz
David Tannenbaum
Christine Kurth
Brad Gillen

What is Google Voice?

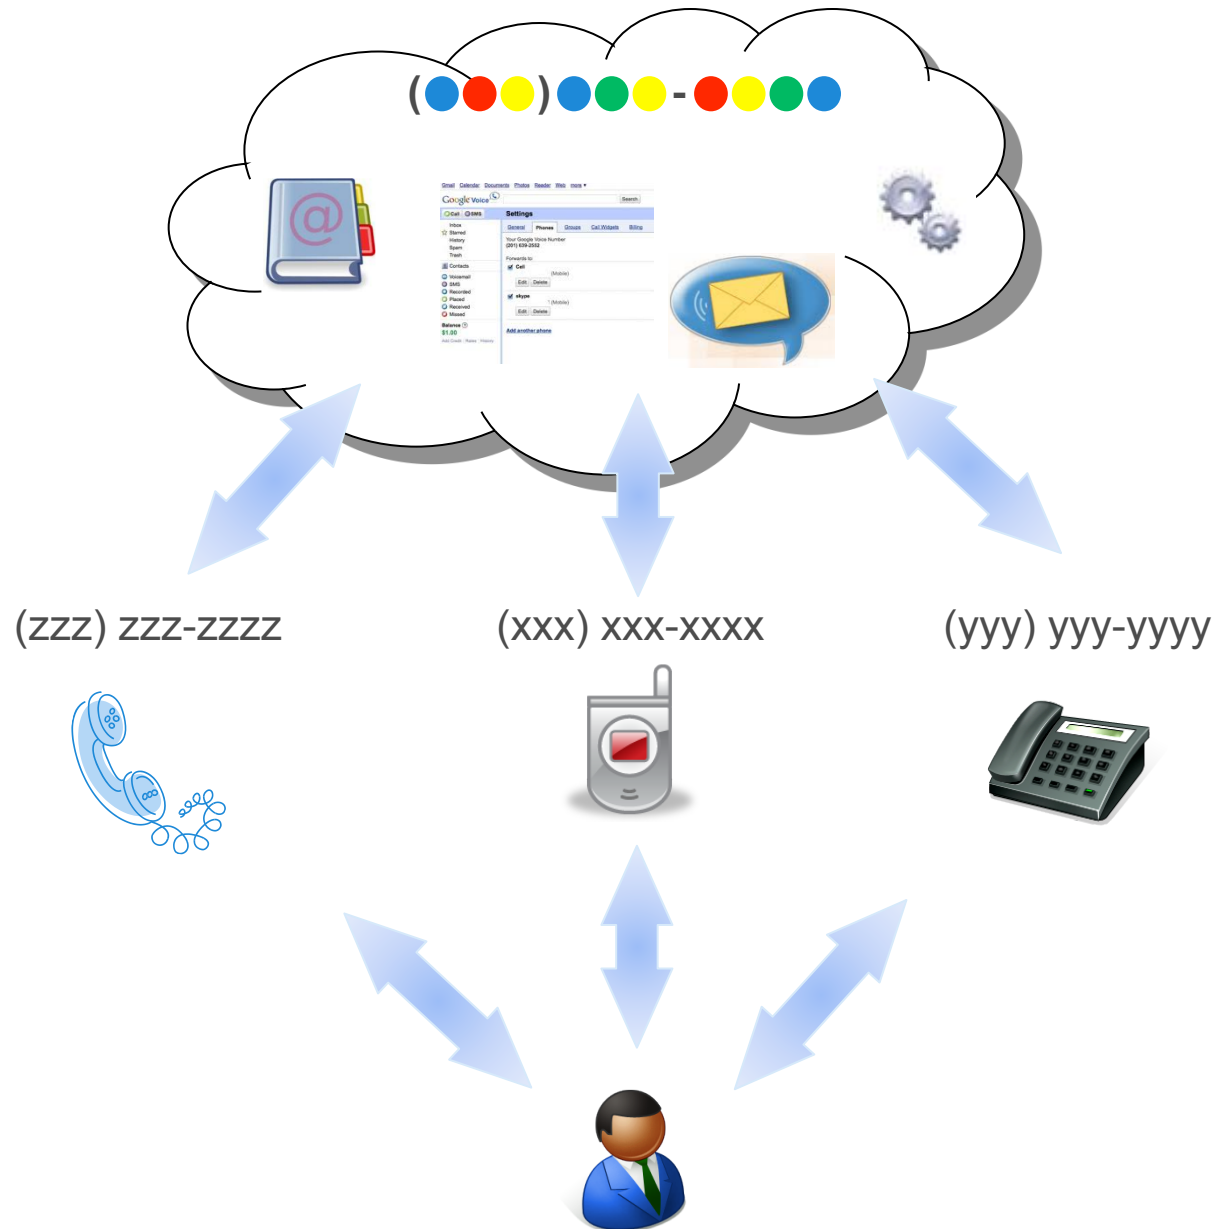

- Control and Personalization over your phone calls
 - One phone number that rings all your phones
 - One voicemail box for life
 - Features that work across all your existing phone services
- Consumer service
 - Works with your existing phone services (NOT a replacement)
 - Free to consumers
- Seamless Web-Phone integration
 - Control all call features from the web
 - Access to archives messages, saved for life

Personal communications today

Communications in the clouds

- Facilitates choice and competition
 - More flexibility to change phone service
 - Device-agnostic, service provider-agnostic
 - Features tied to the user, not to the device or location
- Simple
 - One single interface to manage all communications
 - One number, one voice mailbox
- User-driven
 - Developed by end-users for end users
 - Feature roadmap based on user feedback
 - No extra cost for caller, no extra cost for user
